II BILATERAL WORKSHOP

SMART-TURB SMART-HEART

Organizers: Luca Biferale, Chiara Calascibetta and Liù Maria Catena

The idea of the Workshop is to have 4 days of discussions about the themes of interests of the two projects. Round tables and brainstorming sections about hidden symmetry in turbulence, data assimilation for geophysical and bio-medical complex flows, Lagrangian control of single and multi-agents systems, with applications to odor searches emitted from point and distributed sources. Problems connected to micro and nano-fluidics applications, relativistic fluid dynamics, networks dynamics and statistics will also be discussed. Participation is upon invitation only.

PROGRAMME:

SUNDAY 12

09H00-12H30 CHECK-IN – GET TOGETHER
 12H30-14H00 LUNCH
 AFTERNOON SESSION **1. SCALAR TURBULENCE**
 (C Calascibetta – M Cencini)
 20H00 DINNER

MONDAY 13

08H00-09H00 BREAKFAST
 MORNING SESSION **2. MACHINE LEARNING FOR FLUID DYNAMICS**
 (T Li - M Buzzicotti - F Bonaccorso)
 12H30-14H00 LUNCH
 AFTERNOON SESSION **3. BIOMEDICAL APPLICATIONS**
 (M Scarpolini - F Guglietta - F Viola)
 20H00 DINNER

TUESDAY 14
